FIELD TRIP RESOURCES

From Scottish company Constellation Points, Filament Theatre is pleased to present **Cloud Man**.

Cloudia loves clouds, and she dreams one day of seeing a Cloud Man. Cloud Men are very rare, very shy and very, very hard to find.

Sitting on little cloud cushions, the audience watches Cloudia as she follows clues which lead her to the top of Cloud Mountain, where they will find a big surprise!

A cleverly staged show with puppets, storytelling and lots of clouds, the show explores the ways we try and make sense of the world and encourages the audience to notice the beauty and wonder to be found in everyday life.
